EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregg Rosenblatt on 9/14/05.

The application has been amended as follows:

In claim 1, after "with said body " and before "."

add ---

; a first hinge section to provide a hinge adapted to support a greater than 90 degree bend in the body;

a second hinge section to provide a hinge adapted to support a greater than 90 degree bend in the body; and

a bend region adapted to support an about 90 degree bend in the body---

Cancel claim 2.

In claim 5, replace "claim 2" with ---claim 1---.

In claim 21, after " with said body" and before ";

add ---

wherein the fiber splicing device further includes a first hinge section to provide a hinge adapted to support a greater than 90 degree bend in the body; a second hinge section to provide a hinge adapted to support a greater than 90 degree bend in the body; and a bend region adapted to support an about 90 degree bend in the body; ---.

Allowable Subject Matter

Claims 1, and 3-22 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest a fiber splice device comprising all the specific components with the specific combination including a first hinge section, a second hinge section, and the bend region as set forth in claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Claims 1 and 21 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims directed to

Art Unit: 2874

the species no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
